How to Protect Your Information Online

By [BRIAN X. CHEN](#) and [JONAH ENGEL BROWWICH](#) UPDATED October 3, 2017

There are more reasons than ever to understand how to protect your personal information, as [major website breaches](#) become ever more frequent. On Tuesday, Yahoo said that all three billion of its users had been affected by a breach in 2013, up from the one billion it had originally estimated.

How do I know if my personal
