The map illustrates the Spanish Circum-Caribbean current in the Atlantic Ocean. The current is represented by a thick orange line with arrows indicating its direction. It begins in the Gulf of Mexico, flows north along the coast of North America, then turns westward along the coast of Africa, and finally ends near the Cape Verde Islands. The map also shows the surrounding landmasses: MAINLAND NORTH AMERICA, BRAZIL, EUROPE, and AFRICA. A red dot marks the starting point in the Gulf of Mexico, and another red dot marks the ending point near the Cape Verde Islands. Blue arrows indicate other ocean currents in the region.
